Sample & final approval

N/A []

- ☐ Barcode number, format and scan check
- ☐ Approved work sample before processing
- ☐ Final photo angles and dispatch approval criteria

Labelling and regulatory review

Korean-language labels, origin markings and import requirements vary by product and sales method. This form does not establish compliance. Advice from a customs broker or testing institution may be required. Confirm the barcode issuer and usage rights first.

Prepare for consultation

Final label file / Set and packaging references / Barcode and approved sample
